

# Bug Reports: Test QA Saritasa

---

**Reported By:** Mikhail Basov

**Date of Reporting:** 2026-01-31

**Environment:** Edge v144 (latest stable)

## BUG-CP-01: Incorrect default value Actual until field

---

**ID:** BUG-CP-01

**Summary:** Default value **Actual until** field is not the actual date (today)

**Severity:** Minor

**Priority:** Medium

### Pre-Conditions:

- User is logged in [Test QA Saritasa](#) as admin

### Steps to Reproduce:

1. Open the [New post creation page](#)
2. Observe the value of the **Actual until** field

### Expected Result:

- **Actual until** field set to default value - the actual date (today)

### Actual Result:

- **Actual until** field set to default value - the date after actual (tomorrow)

**Attachments:** None

**Status:** Open

## BUG-CP-02: Incorrect default state Create! button

---

**ID:** BUG-CP-02

**Summary:** **Create!** button is enabled when required fields are empty

**Severity:** Medium

**Priority:** Medium

### Pre-Conditions:

- User is logged in [Test QA Saritasa](#) as admin

**Steps to Reproduce:**

1. Open the [New post creation page](#)
2. Observe the state of the **Create!** button

**Expected Result:**

- **Create!** button is disabled

**Actual Result:**

- **Create!** button is enabled

**Attachments:** None

**Status:** Open

## BUG-CP-03: Incorrect Post title field validation (exceeds 255 characters)

---

**ID:** BUG-CP-03

**Summary:** Validation error message does not appear when the value **Post title** field exceeds 255 characters

**Severity:** Trivial

**Priority:** Medium

**Pre-Conditions:**

- User is logged in [Test QA Saritasa](#) as admin
- [New post creation page](#) is opened
- All other required fields contain valid data

**Test Data:**

- **Post title** field: string with 256 characters

**Steps to Reproduce:**

1. Enter a string of 256 characters into the **Post title** field
2. Verify that the **Post title** field shows an error and the post cannot be created

**Expected Result:**

- **Post title** field is highlighted in red and displays the error message: "Too long title"

**Actual Result:**

- **Post title** field is highlighted in red without displaying an error message

**Attachments:** None

**Status:** Open
